

Let Tubo Market your events

Tubo is a software that markets your events and helps you get outdoor activities based on your preferences .

Why choose Tubo?

Album Creation

Create albums for checked in events. Albums allowing memories to be created with picture or videos taken in 60 seconds.

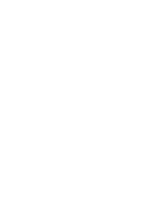

Profile Management

Tubo manages your profile by keeping records of your event history, both events attended and those hosted.

Security Consciousness

Tubo allows you to block and unblock any account from viewing your account.

Attendee Management

Know your registrants and attendees. It's like having your own personal event planner.

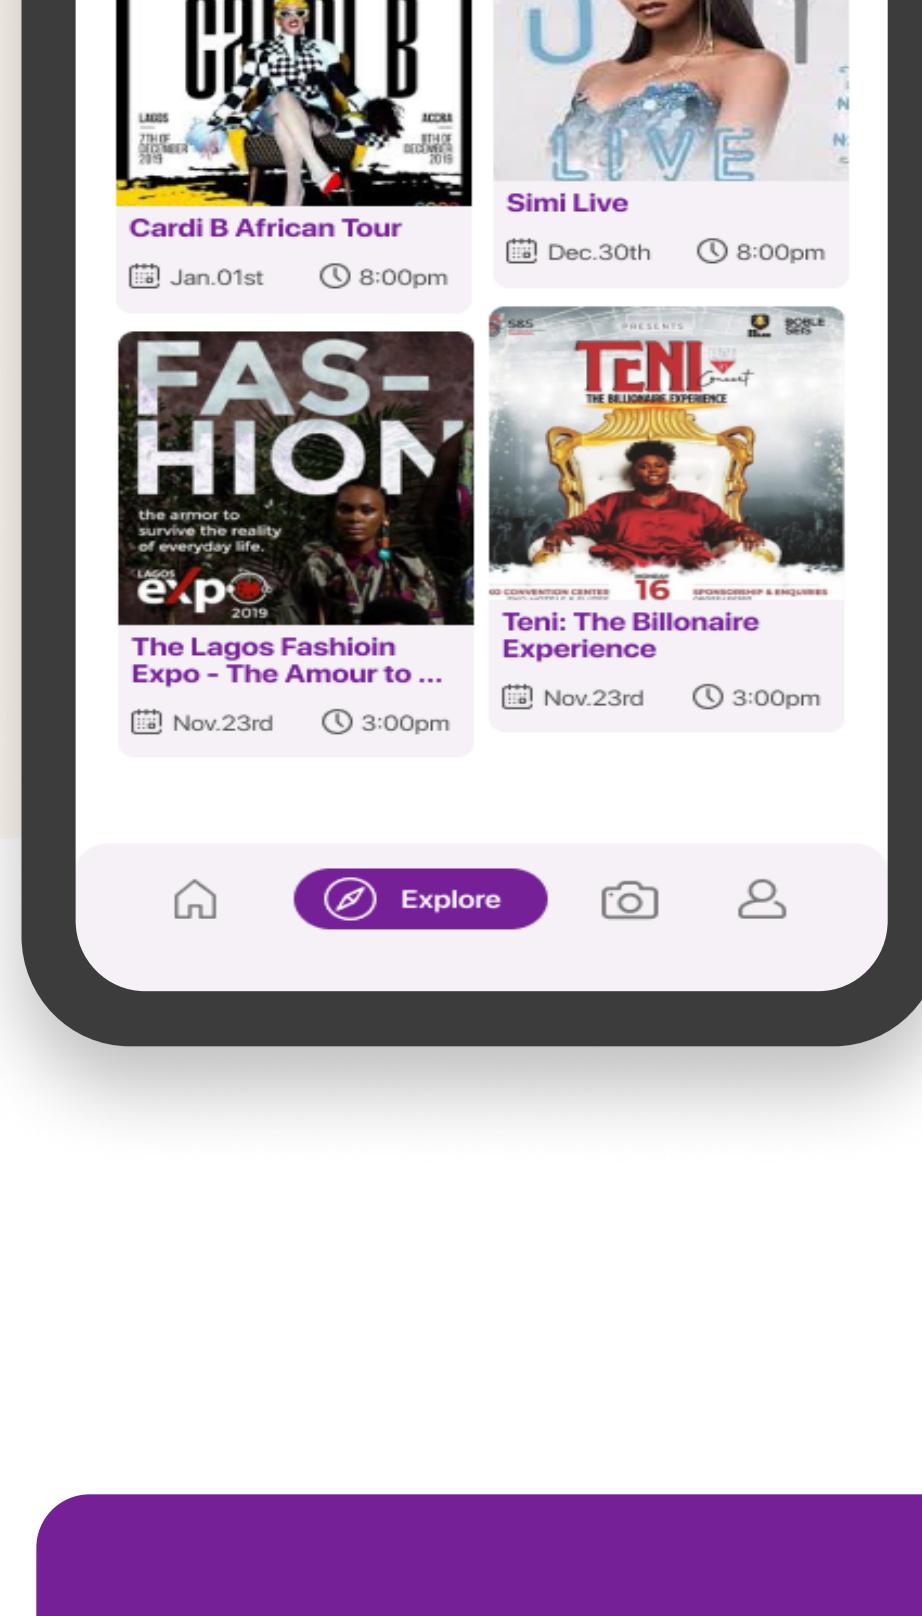

Search Optimization

Easily search and explore events -whether past, ongoing or upcoming.

Cloud Storage

Events can be saved as bookmarks or favorite, to be attended to in future.

Market your events on Tubo -whether private or public

Tubo markets every and all of your events and aids you in your event planning and management process. You can also customize your events settings to public or private-public for all to view, and private for a selected audience. Tubo lets you create, host, and market your event all at once.
